SCOPE OF WORK & DELIVERABLES

USER INTERFACE DESIGN

■4,000

Premium & Responsive UI Landing Pages

Design & Dev

Conversion-optimized landing page structure tailored specifically for cleaning service lead acquisition in Hyderabad.

- Fully responsive mobile-first architecture matching modern guidelines
- Custom dark blue aesthetic theme utilizing modern typography
- 12+ detailed category cards linking to instant callbacks
- High-engagement quick-action Call & WhatsApp floating elements

DATABASE & SPREADSHEET INTEGRATION

■1,500

Google Sheets Live Lead Database Integration

API Integration

Direct front-end to back-end pipeline saving prospect queries in real-time, completely bypassing hosting overheads.

- Google Apps Script (Code.gs) secure connection rules
- Custom database columns (Timestamp, Name, Phone, Service, Source)
- Fast JSON post handler with callback routing
- Complete environment variables configuration for scalability

AUTOMATION & ALERTS

■2,000

Instant Admin Email Notifications & Messages

Automations

Custom triggers instantly notifying project administrators via email matching lead entry updates in the spreadsheet database.

- Dual email broadcast rules (sumithnalla24@ifheindia.org & sri866576@gmail.com)
- Rich-text professional HTML email alert layout with service markers
- Instant subject formatting with lead name and requested service
- Automated contact form triggers redirecting customers to direct WhatsApp chats
